

RANJITH KUMAR P

Respected Sir /Madam ,

I am writing to provide you with an overview of my background and skills. I hold a B.Tech in Information Technology from PSNACET, Dindigul, with a commendable CGPA of 8.02 up to the fourth semester. Prior to this, I achieved 89% in my HSC and 80% in SSLC from VPHSS, Dindigul.

Professionally, I possess a diverse skill set. I am proficient in app development using Flutter (Dart), skilled in C programming, and experienced in web development with HTML, CSS, and JavaScript. Additionally, I am well-versed in Android Studio and have a strong command over Git and GitHub for version control. My knowledge extends to various AI tools as well.

In terms of soft skills, I am known for my creativity, adaptability, effective teamwork, and strong communication abilities.

I have completed notable projects that demonstrate my technical prowess. These include developing a Cloud-Enabled IoT Voltage Monitoring System, a Weather App using Dart, real-time image processing with AI using the OpenCV library, and an Automated Assignment Management System developed with Flutter.

Furthermore, I have enriched my skills through various courses and certifications. Notable among them are my completion of a React Js course from Microsoft, participation in Bsides Bangalore for Cyber Crime and Security, and completion of Java programming and C/C++ courses from reputable institutions.

I am eager to leverage my skills and experiences to contribute effectively to any projects or tasks assigned. Thank you for considering my profile.

Respectfully,

RANJITH KUMAR.
